

## International Practitioners of Holistic Medicine

Accreditation Board for the professional therapist and training providers

DATE: 15<sup>th</sup> JANUARY 2020

### IMPORTANT INFORMATION FOR STUDENTS OF IPHM ACCREDITED TRAINING PROVIDER SOUL CONSCIOUSNESS LAB

It has come to the attention of The IPHM International Accreditation Board located in the UK and offering accreditation for professional training providers worldwide, that one of our registered and approved and accredited training providers has been receiving false claims both about their services and that of the IPHM.

**Our Guaranteed Assurance to you** - The IPHM would like to assure any student who has already studied or is considering studying with the **Soul Consciousness Lab** offering "Integrated Hypnotherapy and Past Life Regression Training" or any of their training programmes, that they are genuine and professional and a fully accredited and approved member of the IPHM.

The IPHM ensure all training providers offer a professional and excellent service to their clients and are qualified to do so. The letter and email that has been sent out by Amarantos is malicious and intended to disrupt and mislead students against this respected training provider.

We request that students receiving this email treat it as spam and deliberate attempt to mislead the good name of both the training provider and the respected accreditation board.

If any student has any concerns regarding their training with this provider then please feel free to email us at [membership@iphm.co.uk](mailto:membership@iphm.co.uk) if further clarification is required.

Sincerely

Trish Kershaw (Director)

Lisa Elsworth (Director)
